

WARNING!

- **WARNING** indicates a hazard which, if not avoided, could result in death, injury or serious property damage.

AVERTISSEMENT!

- **AVERTISSEMENT** indique un danger qui, s'il n'est pas évité, pourrait entraîner la mort, des blessures, ou des dommages matériels importants.

WARNUNG!

- **WARNUNG** weist auf eine Gefahr hin, die, wenn sie nicht vermieden wird, zu Tod, Verletzungen oder schweren Sachschäden führen kann.

WARNING!

- This product contains or uses a Class 1 Laser module that complies with FDA 21 CFR 1040.10, 1040.11 and IEC 60825-1. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

AVERTISSEMENT!

- Ce produit contient ou utilise un module laser de Classe 1 conforme au FDA 21 CFR 1040.10, 1040.11 et IEC 60825-1. L'utilisation de commandes ou de réglages ou l'exécution de procédures autres que celles spécifiées dans le présent document peut entraîner une exposition dangereuse à des radiations.

WARNUNG!

- Dieses Produkt enthält oder verwendet ein Lasermodul der Klasse 1, das FDA 21 CFR 1040.10, 1040.11 und IEC 60825-1 nachkommt. Die Verwendung von Kontrollen oder Anpassungen oder die Durchführung von anderen als den hier beschriebenen Verfahren, kann zu gefährlicher Strahlenbelastung führen.

CAUTION!

- CAUTION indicates a hazard which, if not avoided, could result in service interruption, damage to the equipment, or minor property damage
- Electrostatic Discharge (ESD) can damage electronic devices. When handling devices, wear an antistatic discharge wrist strap to prevent damage to electronic components. Place in antistatic packing material when transporting or storing. When installing or maintaining, always place devices on an approved antistatic mat that is electrically grounded.
- The Ethernet port(s) are suitable for connection to internal wiring or cabling only. Do not metallically connect this port to interfaces that connect to external wiring. Do not connect this port to equipment located in other buildings or structures.
- This equipment is intended to be installed and used only by instructed or skilled persons.
- If the fiber cable has a metallic trace wire, do not bring the trace wire inside the NID housing. It is recommended to cut-off the trace wire at least 6 inches from the NID housing and insulate it, or cut-off the trace wire and bury underground.
- Power conductors, TNV-2 and Ethernet connections which are exposed outside of the building, are intended to be less than 140 feet and have adequate clearance from power and lightning conductors in accordance with NEC 725 and 800.

NOTES

- NOTES inform the user of additional, but important, information or features.
- This product meets EU RoHS Directive. Refer to www.adtran.com/environmental for further information on RoHS/WEEE.
- This product is NRTL Listed to the applicable UL/CSA Standards. This product has also been evaluated to applicable international standards for CE and RCM marking.

- Refer to the national, state and local electrical codes for the requirements for power and grounding wiring methods.
- Installation of this equipment must be done according to the National Electrical Code (NEC) and the Canadian Electrical Code (CEC).
- This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
 - ◆ This device may not cause harmful interference.
 - ◆ This device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by Adtran could void the user's authority to operate this equipment.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - ◆ Reorient or relocate the receiving antenna.
 - ◆ Increase the separation between the equipment and receiver.
 - ◆ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - ◆ Consult the dealer or an experienced radio/TV technician for help.
- CAN ICES-3 (B)/NMB-3(B)
- This product has been evaluated to ITU-T K.21. Interfaces meet the ITU-T lightning requirement for Enhanced performance criteria.
- The product is designed to meet the following environmental classes:
 - ◆ ETSI EN 300 019-1-1 "Classification of environmental conditions; Storage," Class 1.2
 - ◆ ETSI EN 300 019-1-2 "Classification of environmental conditions, Transportation," Class 2.3
 - ◆ ETSI EN 300 019-1-3 "Classification of environmental conditions, Stationary use at weather protected locations," Class 3.1
- The device is designed to function without degradation during the exposure to all test severities per Class 3.1 of ETSI EN 300 019-1-3.
- This equipment contains no parts that can be serviced by the user.
- Changes or modifications not expressly approved by Adtran will void the warranty.

Installation Instructions:

Refer to the Quick Start or Job Aid for this product (P/N: 61287845F1-13) for detailed installation instructions.

Notice d'installation :

Rapportez-vous au Guide de prise en main, ou à L'Aide-mémoire pour ce produit (Code article 61287845F1-13) pour des consignes d'installation détaillées.

Installationsanweisungen:

Genaue Installationsanweisungen finden Sie in der Schnellstart- oder Auftragshilfe für dieses Produkt (P/N: 61287845F1-13).
