Q&A

"When configuring the TRACER 6000 series radios for Voice, using the Quad T1 Module, what bandwidth does each enabled DSX-1 use?"

Q: "When configuring the TRACER 6000 series radios for Voice, using the Quad T1 Module, what bandwidth does each enabled DSX-1 use?"

A: "Each of the DSX-1s, that you enable, will allocate 2Mbps of the 16Mbps radio bandwidth."
