INSTALLATION INSTRUCTIONS

1. Remove the cover plate from the appropriate network slot in the ATLAS 550 rear panel.
2. Slide the Modem Management Module into the network slot until the module is firmly positioned against the front of the chassis.
3. Secure the thumbscrews at both edges of the module. Tighten with a screwdriver.
4. Connect one end of the provided satin cable to the line port on the module and the other to the phone outlet.
5. Complete installation of remaining modules and Base Unit as specified in the Installation section of the ATLAS 550 System Manual.
